What happens if I change my menu?

You may wish to make changes to your menu for a variety of reasons including:

- increasing variety to keep students interested
- introducing new commercial products or new canteen made recipes
- removing or replacing products that have been reformulated and no longer meet the Criteria
- swapping out items that don't sell very well
- making seasonal changes.

While you do need to ensure that any change continues to meet the Strategy, the good news is you don't need to re-submit your menu to the Healthy Food Information Service (formerly the Menu Check Service) every time you make a change. Having been through the menu check process you should be familiar with the Food and Drink Criteria and how to apply this to new foods and drinks that you want to add to your menu.

For example, if you add new **Occasional** foods or drinks, you need to make sure they have a Health Star Rating of at least 3.5 stars and do not exceed the maximum portion limits. You will also need to check that at least 75% of your menu is still made up of **Everyday** foods and drinks, otherwise you may need to add more **Everyday** items to balance your menu.

How can I keep up to date with the latest information?

There are a number of ways you can keep up to date with the latest information, products and resources:

- **Visit the HKA website** <https://healthy-kids.com.au> for resources, recipes and case studies on the Healthy School Canteen Strategy.
- **Network with other canteen managers** - Join canteen manager groups on social media platforms, such as Facebook, to network with other canteen managers. Local Health Districts may also host canteen network meetings in your area. Get in touch with your local health promotion officer to learn if there other networking opportunities near you (see Support Services next page).

- **Check the Healthy Food Finder:** <https://www.foodfinder.health.nsw.gov.au/> and the **NSW Buyer's Guide** <https://healthy-kids.com.au/what-is-the-food-industry/buyers-guide/> for new commercial foods and drinks or to check that commercial items on your menu still meet the Criteria.
